Truckee Woman Killed In Wreck Near State Line

Others Are Hurt in Series Of Crashes In District

Mrs. Lillian Bandur of Truckee was killed instantly shortly before midnight Friday when she apparently lost control of the car she was driving just west of the state line on Highway 40.

According to State Patrolman William Gautsche who, with Patrolman Martin Sturcke, investigated, the 38-year-old woman was driving eastward at a high rate of speed and apparently was unable to negotiate a curve. She was thrown from the turning vehicle, which then ran over her and crushed her chest, killing her instantly.

Munson Reeves, 41, Loomis, a passenger with Mrs. Bandur, was rushed to a Reno hospital by the Truckee ambulance. Latest reports from the hospital indicate Reeves suffered critical back injuries and will be in the hospital for from three to six weeks.

Funeral services were held at the Truckee Colonial Mortuary yesterday afternoon and interment was in the Truckee cemetery. Rev. A. A. Carmitchel officiated at the last rites.

Mrs. Bandur was a native of Texas, where relatives were notified of her death. She had spent nearly 20 years in this area and at Monterey.

Loses Groceries

At 6:05 a.m. Friday, a large commercial vehicle, operated by Theodore Marshall Ross, 26, of Reno for the McLeod Trucking Company, was badly wrecked two miles east of Truckee. A load of groceries which was being hauled was scattered over the countryside when the huge vehicle left the road but Ross was not seriously injured and caught a ride to Reno.

The driver was cited for speeding and for not having his vehicle under control on a mountain road.

Traffic Tieup

Several cars were battered up and at least two people injured Monday morning at 11 o'clock near Cisco where a series of rear end collisions resulted from one car running out of gasoline.

Patrolman Gautsche said a light rain and heavy ground fog, coupled with cars following too closely caused serious injuries to Mrs. B. C. Bowers, 66, Santa Cruz, and lesser injuries to Mrs. J. W. Holm, 39, Madison, Wisconsin.

When Jeanne E. Burnette, 18, Reno, stopped abruptly to avoid striking the car which had run out of gas, a car driven by John W. Holm, 40, ran into her vehicle and a third car, operated by Robert D. Bowers, 33, crashed into the Holm machine. Bowers was cited for following too closely.

The mishap occurred on the west lane and Gautsche was just getting this straightened out when the east lane was blocked by other rearend collisions and traffic was at a standstill for a distance of more than a mile.

Mrs. Bowers was taken to Tahoe Forest Hospital for treatment and removed to Santa Cruz by Truckee Ambulance.

Speed Blamed

Saturday evening, a car driven by Richard Allen Niderost, 28, of Reno collided with one driven by Mrs. J. B. O'Neill at Gateway Park. No one was seriously injured but Niderost's automobile was badly damaged. Niderost was cited by Gautsche for operating at a speed in excess of the 35-mile-per-hour limit estabished and posted in the area.

Catchable Trout Plant In River Thrills Nimrods

Early Tuesday morning, the California side of the Truckee River received its first planting of catchable sized trout, with state department of fish and game employees and members of the Truckee Outdoor Sportsmen cooperating in the distribution.

Allan Pollitt, fish and game supervisor from Placerville who directed the operation, said there were 5,000 rainbow trout brought down in special tank trucks from the Crystal Lake state hatchery at Burney, Shasta County. The fish, running five to the pound and averaging around nine inches, required 16 months of care before reaching the "catchable" stage of their development, Pollitt said.

The program has been possible through the expansion of the state hatcheries under the wildlife conservation board.

Both Pollitt and Johnny Ciardella, president of the Truckee Outdoor Sportsmen, said they expect at least one more plant of similar proportions to be made in the Truckee later in the summer.

The planting Tuesday morning was made from the Truckee River bridge on the Brockway cutoff upstream toward Lake Tahoe.

Assisting Pollitt, beside Ciardella, were F. W. Wilson, R. E. Smart, Marden Robinette and Warden Tom Borneman, Truckee; William Bechdolt, Tahoe City; Capt. Bill LaMarr, Colfax; Warden Everett Robinson, Auburn; Donald Evins, Tahoe hatchery; Leo Browning, operating a planting truck from Basin Creek hatchery, Tuolumne County; Lyle Null and Roy Swain, Crystal Lake hatchery.

A. T. (Slim) Ellert, long time Truckee River fisherman, on viewing the trout in their tanks before the planting, declared:

"This is one of the finest things to hit our river for a long time. This planting should help a lot to improve fishing in the Truckee."

Ciardella expressed the appreciation of the Outdoor Sportsmen for the assistance given in planting the fish and to officials who brought the trout here.

NEW MACHINERY AT LAUNDRY TO FOLD FLAT WORK

Keeping pace with the most modern laundries in the west, Nat Quilici of Fontana's Laundry has just completed installation of a new American Trumatic folding machine.

Augmenting the already fully modern laundry, the folder is designed to automatically take flatwork, such as sheets, pillow cases, napkins and similar items directly off the ironer, running them through a progressive series of intricate belts and creasers and out upon the work table, ready for packaging.

The new machine not only speeds up and improves production but relieves employees of a tiresome task.

Other new machinery recently installed by Quilici includes an automatic Monel washer which, when the contents have been thoroughly washed, dumps the clothes into trays for easy handling. Numerous other innovations have been added at the local laundry to assist the 30 employees in keeping pace with the fast growing business of the area.

WARN MOTORISTS ON LEAVING KEYS IN PARKED CARS

Motorists who leave ignition keys in their parked cars are not only violating the law but are very apt to lose their vehicles.

This was the warning issued this week by William Gautsche, senior Truckee highway patrol officer, who reported two vehicles had been stolen Tuesday. A Buick sedan, owned by Paul Rausch, was taken from its parking place on the main street and a pickup truck, owned by the Donner Trail Lumber Company, was reported missing.

The Rausch car was later found abandoned on another local street. Officers were still seeking the pickup.

Particularly during the summer months it is unwise to leave keys in vehicles, Gautsche said. There are many hitchhikers and itinerants using the highways and the open cars and keys attached offer an invitation which many will not refuse.

Sun Beams

by Walter M. Barrett

With the vacation season now in full swing, a word or two of advice is in order for the millions who will seek relaxation in the great outdoors. One of the first bits of advice is "mind your outdoor manners." Don't throw trash, cans and bottles out of your car along the highways. Keep a paper bag in your car in which to place this litter, then deposit it in a rubbish can at some stopping point. When camping in our national forests, national or state parks, leave a clean campsite for the next fellow. Clean up your camp and deposit all refuse in trash cans. Campers, hikers and fishermen in the high country of the Sierra should make a special effort to leave clean camps at the few available campsites. The Sierra Club advises them to burn trash, burn and flatten tin cans and pack them out with them at the end of the trip. If this is not feasible, drop the flattened cans and bottles in rock slide crevices where the cans will soon rust away. Drive carefully, of course; be careful with fire; swim only in safe waters; beware of the blistering quality of high mountain and seashore sunshine — and enjoy a pleasant vacation.

PLACERVILLE DUE HERE ON SUNDAY FOR BALL GAME

In an evenly played contest, which went into the 11th inning where the Placer JACL finally won 12 to 9, the Truckee Mountaineers baseball club of the Placer Nevada League Sunday again showed ample proof of their ability to compete in the league.

The score see-sawed all through the standard nine innings. Truckee took the lead in the first, held it until the Nisei forged into a 4-3 lead in the fifth, holding it until the 7th when the locals took a one-run advantage again, only to draw a tie in the ninth on a close call at the plate.

After a fast, scoreless tenth, in the eleventh, with the score tied 6 to 6, the visitors filled the bases with nicely placed bunts and infield hits and Munson was pulled and replaced by Pomin, who walked in one more run before retiring the side. The JACL had tallied six runs in the 11th.

Truckee batters made a nice try to recover and managed to get across three more runs before the final gong.

Shortstop George Riola powered a home run over center field fence Ed Ulsheimer, second sacker, led in averages with three for six. Matsuoka was top hitter for the day with four for five for the visitors. Yo Takayama, who played in the outfield and pitched, got two doubles in four trips.

Korich, Campbell, Stark, Kielhofer, Wakefield and Munson all got hits for the home towners.

Next Sunday the Placerville Bartletts come to Truckee in the third game of the second half. Last Sunday Placerville edged Lincoln 8 to 7.

Word from Nevada City is that Marvin Haddy, former N.C. Athletics manager and infielder, has quit the A's and signed with the Mountaineers. Dick Penrose, former Colfax Fireball, was also reported to have joined Truckee and both are due to appear in the Placerville contest.

The score Sunday:	R	H	E
JACL	12	16	4
Truckee	9	11	5

Ikeda, Takayama, Goto and Hayashida; Munson, Pomin and Korich.

Curran To Take Over Mattos Ice, Beverage July 1

Mr. and Mrs. Joe Mattos this week announced they have sold the Mattos Beverage and Ice here to Mr. and Mrs. William F. Curran, the transaction to be completed July 1.

The sale of the business includes the business property on the main street, which houses the distributing business offices and store house as well as a modern living apartment on the second floor.

Mattos, who has been in business in Truckee since 1914 and a resident seven years prior to then, said he will continue to work for Curran until October 1 and may then continue to make wholesale deliveries in the Lake Tahoe area on a part-time basis.

The Mattoses have purchased the H. G. Williams home on River Street and will move there early in September when the Williams, for many years residents of Truckee, plan to move to Sacramento. At that time, the Currans, now residing on Church Street, will move into their newly acquired apartment.

Curran, for 14 years with the U. S. Forest Service here and a veteran of the recent war, has secured all the franchises now held by Mattos, including those of the Butter Cream Bakeries, Crystal Creamery, Chism Bottling and Mission Beverages, and will continue to offer the same service which has been given by Mattos.

The new owner is widely and favorably known throughout the region, past commander of the American Legion, president of the Rotary Club and active in the 20-30 organization. He played baseball and basketball for the Truckee teams for several years and is a progressive, alert businessman. Mrs. Curran will assist her husband in the office where Mrs. Mattos also will remain for the time being.

The Truckee business fraternity will regret the semi-retirement of Mattos but will extend a hearty welcome to his successor.

CAR THIEF SUSPECT HELD AFTER QUICK WORK BY OFFICERS

Fast work on the part of Deputy Sheriff Roy Waters on Tuesday morning resulted in the apprehension of an accused auto thief who was caught less than an hour after the car was allegedly stolen from Donner Lake.

The suspect, William C. Percy, 23, Virginia, Waters said, was occupying a cabin with the car owner, W. M. Smith, 28, Chicago. The latter sent Percy to purchase some potato chips and gave him a $20 bill. A short time later Smith went to look for his companion, found the car gone and notified Waters. The latter called the Reno sheriff's office and a few minutes later Percy was in custody after a 90-mile-an-hour chase through Reno.

Weiner Roast, Fire Works, To Feature Fourth

Chamber of Commerce Will Be Host At Donner

A free weiner roast, fireworks and dancing are on the program for Independence Day in Truckee.

This was decided upon at a meeting of the Truckee Chamber of Commerce last Thursday when President Reg Smart appointed Rex Reid, Oscar Quam and Earl Stice to arrange the details and make preparations for the observance.

Believing that a Fourth of July celebration should not be without its fireworks, Reid immediately started contacting businessmen in the Truckee and Donner Lake area and raised $223 for this purpose, and at the same time secured permission from the forest service to display the attraction from a raft on Donner Lake.

The weiner roast, with the chamber of commerce supplying the weiners, buns and soft drinks, will be held at the west end of Donner Lake where Lee Nisbet is arranging for dancing facilities. The roast will start at 7:30 with the fireworks following immediately and tentative plans call for a three-piece orchestra, but if this is not available, then other music will be arranged for for the dancing.

Reid said that while he had attempted to contact everyone for donations for the fireworks, he may have overlooked some and if anyone wishes to contribute they may do so at Heller's Variety Store.

Reid said Nisbet was attempting to present a program of torchlight water skiing and if arrangements can be completed by next Friday, this will be added to the program of festivities.

Everyone is invited to attend the affair as guests of the chamber of commerce and local merchants. No charge will be made for any of the attractions planned.

ADAPTABILITY KEY TO SURVIVAL FOR TINY MOUSE

Life is short for the White Footed Mice. They are old at the age of three and they hardly ever live to be more than five. To survive that long, they must stay out of the clutches of their enemies.

Some of them are lucky and avoid capture. But according to the National Wildlife Federation, untold numbers are seized and eaten by hawks, owls, skunks, weasels, minks, foxes and snakes.

Despite this toll, White Footed Mice are plentiful in nearly all parts of the United States. Sometimse they live in buildings, but

©1951 National Wildlife Federation
White-Footed Mouse

they get along just as well in fields and woodlands. In all kinds of weather, summer and winter, they make the best of what they have.

On grassy plains, White Footed Mice burrow in the ground. In forests, they may dig their shelters under rocks, stumps, and logs, or they may live in the hollows of trees. Because they are good at climbing, they sometimes go high above the ground to find tree holes or old bird nests in which to make thier homes.

In the spot which they choose, the parents carefully build a nest of plant materials. In it they raise several litters of young each year. There are from three to seven babies in a litter.

At birth, a White Footed Mouse is tiny, blind, and helpless. It is only an inch and a half long, and depends on its mother for food. But it grows rapidly and soon is on its own. In less than three weeks it has its eyes open and no longer needs milk.

By the time it is two months old, the White Footed Mouse is fully grown. It is seven and a half inches long, including a tail that measures three and a half inches Its body is plump and, for a small creature, it has large ears and eyes and a long head.

True to its name, the White Footed Mouse has white feet. The underside of its body is white, too. Its head, back and sides may be either fawn, brown, or gray.

Because it is so dull in color, the little animal does not attract much attention as it scurries around, looking for food. It feasts on many kinds of seeds and nuts, and it also likes snails and insects. Besides the meals which it eats every day, it collects supplies and stores them away. In its cheek pouches, it carries grain and bits of nuts to the hiding place where it saves food for the winter.

Like their gray cousins, White Footed Mice are usually looked upon as pests. They eat valuable grain, and sometimes they damage houses and barns. By insects, though, they make up for part of the trouble which they cause.

BANK OF AMERICA SETTING UP SERVICE AT LAKE

TAHOE CITY— Fred A. Kilner and Company, Homewood realtors, have confirmed the leasing of two stores in the Kilner Building at Tahoe City by the Truckee branch, Bank of America NT&SA. A three teller office will be installed here, to be known as the Tahoe Lake branch, Bank of America, and a four teller office will be opened at the south Tahoe wye in the Lampson Building, to be known as the Tahoe Valley branch. Both of these branches will operate under the parent branch at Truckee as agencies.

The Lake Tahoe-Sierra Chamber of Commerce is cooperating by agreeing to move to the store formerly used as a beauty parlor at the south end of the building here, in order that the bank may have the space required for efficient operation. Moving started Monday.

The new branch banks are slated to operate each year from June 1 to September 30. July 7 was given as the tentative opening date this year.

Steadily increasing population and the advent of new businesses showed urgent need for the banking facilities at Lake Tahoe, which will be real boon to the area.

BOATING ACTIVITY ON UPSWING, RULES SUGGESTED

BROCKWAY— Swimming and boating are again leading diversions at many spots around Lake Tahoe.

Numerous resorts afford their own facilities and there is the occasional public beach, administered as a rule by the federal or state government. Power boats abound on the lake and resort concessions offer craft with outboard motors for fishermen or inboard craft which may be chartered for around the lake cruises.

In this connection, the Outboard Boating Club of America says, "Boating is the safest of outdoor sports—if you will use common sense and courtesy." The organization offers "eight simple rules for carefree boating." It presents its "common sense afloat" rules this way:

Know your boat. Every boat has its limitations. Learn what you can expect from your boat.

Do not overload. Seats do not indicate capacity. Two or three adults may be a full load under many conditions.

Balance your load. Distribute weight evenly in the boat—from side to side and from bow to stern.

Keep low. And step in the center when boarding the boat ro changing seats.

Watch the weather. Head for shore before a storm breaks. If caught out, seat passengers on the floor.

Head into the wavse. If waves are high, head your boat at an angle toward the waves at slow speed.

Use the right motor. Too much power can damage your boat—even swamp it. Look for the plate giving the horsepower recommended by the Outboard Boating Club of America.

Avoid sharp turns. Fast, sharp turns are hard on equipment and sometimes on people. Take it easy.

SUMMIT SCENE

by FRAN COUILLARD

We hold in our palm a postal card advising us of a "Highway 40-Sierra Chamber of Commerce" breakfast at 11 a.m. Wednesday, June 25, at Soda Springs Hotel. This was to be the "kick off" for the mountain chamber of commerce and much enthusiasm has been engendered. In our ten years in this Donner area, a great deal of which time has been spent in promotional work for the area, we believe that a chamber of commerce will answer most of our problems.

Mountain folks cry "meetings, meetings, meetings" and throw up their hands in despair when they are summoned. Our water and sanitation problems made it necessary that the communit "round table" frequently to discuss the extremity of the serious situation. The lack of funds in the area's biggest promotional venture's coffers, the Donner Trail Memorial Race, called forht members of the area to serve on a fund raising committee for this event. Parking and highway problems of the winter, fish planting needs, winter sports promotion, all have manifested the need of promotional activity and these and more should be handled through one avenue where funds and efforts can be centralized for the good of all.

The fact that the foundation rock of this organization is being quietly, painstakingly and unhurriedly laid is indicative of permanence. The "meeting" bugaboo can be dispensed with by a board of directors who are willing and anxious to serve the community. Understand officers and directors were to be nominated at this "kick off" breakfast. More later.

Encouraging to the hard workers who are promoting the mountain chamber was the visit of two bus loads of chamber of commerce members on the Sacramento chamber's good will tour last Saturday. The two buses disgorged their riders at the Sdoa Springs Hotel for a rest stop and business men of Sacramento were enthusiastic about the mountain's "new baby." They promised full cooperation and help in the organization thereof.

Friends of Peg Travis will be interested to know that she has resigned her position at Nyack Lodge and has moved back to the hill top, where she has leased the Beacon Hill Coffee Shop.

Blil Lowry of the snow lab slipped back as unobtrusively as he left. Remember we told you that Bill had traveled back to Cincinnati to claim Nina as his bride? The cute trick with the shining black dutch cut, sparkling eyes, rolled jeans and saddle oxfords that you might see swinging along the highway is Nina. Remember we told you that Nina was a scientist, as well as her husband? Her diploma says so, but she definitely gives no other indication that might classify her as typical. No horn rimmed classes, no serious mien—just sparkling eyes, a trim figure and the dutch cut. Welcome to the mountains, Nina. We'll try to remember that you are a scientist.

Gloria Parrott sparkles as her mother drops in for a few days visit. Jeannie Moriano entertains the Parrotts and "mama" with a small dinner party.

Bud and Betty Horak take off for a vacation, destination unknown.

We are told that bus loads and bus loads of soldiers will disembark at the various hill lodges on Thursday evening for dinner, en route somewhere or another. Soda Springs Hotel, Rainbow Tavern and Donner Summit Lodge will attempt to feed the multitude and all mountaineers have been "drafted" for the wholesale dinners that will be turned out.

At Kingvale Park the Cleetus Brown family arrive to take a look at their emerging cabin. Just a stove pipe down.

The Frank Bourdets move into their Soda Springs subdivision home to gaze out of a window that frames an eight foot snow drift. Irene Bourdet treats herself to a good rest before preparing for daughter Pat's wedding to be held in the fall, while young Penny Bourdet dreams of the glamorous dress she will grace as her sister's maid of honor.

Jack Patten lugged in an ice-filled milk can—did I say ice filled? Other than the ice was one of the biggest loch leven trout we have ever seen. Did have the weight and dimensions written down but seem t ohave mislaid same. Anyhow the length was over 24 inches, the girth was over 13 inches and the weight somewhere between six and seven pounds. Jack says it took him 20 minutes to land this monster and stated it was the greatest thrill in his river and stream fishing to date. Jack enters said catch in the Nevada Sportsmen's contest. Thus far, they told him, his catch was the largest. The trout hung way over our goodly scales.

Good catches are being reported from the Yuba. One of Elmo Moriano's house guests consistently caught goodly sized trout in the hole back of Beacon Hill Lodge. My brother in law, Don Lyon of Sacramento, who vacationed in the Hack Shack at Kingvale, kept his table well supplied with good sized trout caught in the Kingvale area. Our fishing license sales increase as the snow packs recede from the Yuba's banks.

We regret to report that the Mallory family is leaving us. Bill Mallory, formerly with Ralph Rowton at the Soda Springs service station, takes over a small dairy ranch near Stockton.

DeeDee Dunlap returns from a serious operation and again presides over the desk at Donner Summit Lodge, looking fit and well again.

Elmo Moriano's Beacon Hill bar is now being manned by Truckee's B. J. (Boz) Boseley.

Eleanor Johansen returns from a sojourn with Marin County relatives.

The Doctor Reynolds' family take over their big cabin at Soda Springs for the weekend as they plan to take over permanently later on in the year. Son Ted, a student at University of California after his recent European experiences, reports the birth of child number three—a girl named Pamela.

Hiker Roy Thompson of The Cedars still trudges back and forth from The Cedars, the snow still too high for navigation of a vehicle of any sort. The recent Monday rain playfully washed out the Onion Creek bridge as Roy attempted to communicate with civilization again and his Ice Lakes stop found him soaked, disgusted and tired of the winter's residue. Cedar residents, usually en residence at this time of the year, chomp at the bit in their valley and bay area homes as they await the road's opening.

U.N. Agency Helps Korean Farmers

As a first step in the long-range rehabilitation of Korea's food resources the United Nations Reconstruction Agency (UNKRA) and the Heifer Project, an interdenominational voluntary society, sent 210,000 hatching eggs by plane to that country. Above, Mr. Hobart Creighton, a hatching expert with the U.N. Civil Assistance Command in Korea, shows a farmer how to handle the baby chicks.

162 Liquor Licenses Listed In Nevada County

SACRAMENTO —(C. N. S.)— Californians, even if confronted by a shortage of water, aren't likely to go thirsty, for there are 43,994 places in the state where alcoholic beverages can be purchased. This announcement was made by the state board of equalization, which completed a count of premises as of April 1, showing that Nevada County has 162 within its boundaries.

The Bob Campbells, who have been in Los Angeles during the winter, are now at Tahoma for the season.

Tahoe Letter

Tahoe City, June 23

Dear Tahoeites:

At long last, my stay at Tahoe Inn has ended. Much as I enjoyed my sojourn, it is nice to be settled permanently at last. The folks moved into their beautiful, spacious home over the past weekend and it is wonderful to have so much room. My new telephone number is Tahoe Ciyt 228W and I can usually be reached in the evening, if not through the day.

Charlie Swanson has returned from his visit to Saratoga and has changed his mind about leaving the lake for the big city. Seems he didn't take to the change like he thought he would, so now he plans to find work here and stick around. He greatly enjoyed attending the graduation exercises of the Saratoga Union Grammar School where his young grandson, Teddy Purcell, just about made a clean sweep of his school's honors. Ted won the $25 bond awarded by the Loins Club for superior leadership, scholarship, citizenship and responsibility; the gold medal as the outstanding athlete OS of the eighth grade; the school merit award pin for the highest number of merit points in his class; he was vice-president of the class during the spring semester and president during the fall semester and he offered the Presentation of Key during the graduation program, which was accepted by a classmate.

Tahoe Flotilla 85, U. S. Coast Guard, meets tonight at Fred Main's home and, according to expectations, a number of vital issues will be decided upon which affect this area. Local residents are asked to cooperate in any way possible, to make this organization one of the finest in existence.

Fred Main reports that although no prize-winning fish have been caught over the weekend, everybody went home with some nice trout. Some days have been "spotty" with few fish caught but those who persist are being rewarded with good catches.

Bob Watson, Placer County building inspector, whose office is now open in Tahoe City, advises all planning to build, or improve, dwellings or other buildings in the amount of $200 or more to secure permits beforehand or they will be subject to fine. This applies to all residing within Placer County.

Bishop and Mrs. Noel Porter of the Sacramento Episcopal diocese have arrived at their summer home here for the season. Bishop Porter announces that regular services at the Outdoor Chapel near the Tahoe Tavern will begin Sunday, June 29, at 11 a.m. An earlier date had been planned but heavy damage done the outdoor pews by the deep snows last winter necessitated some repairs not anticipated. The public is cordially invited to attend the services, which are non-sectarian.

Judge and Mrs. Chester McDonald of Woodland enjoyed the weekend at their summer home in Timberland. They were joined Saturday by their son, Douglas, and his wife, also of Woodland.

Tahoe Tavern has been a busy place since its summer opening on June 15. The first convention arriving for three days was the one sponsored by the Pennsylvania Mutual Insurance Company, followed by the Aetna Insurance western states and now in progress is the Lincoln Mutual Life Insurance Company, which arrived Sunday and departs Wednesday.

Mr. and Mrs. Glenn Greene of Pasadena enjoyed Thursday to Saturday at Tahoe City where they were houseguests of Mrs. Evelyn Bliss. The Greenes are well acquainted at hte lake, where he was formerly manager of Tahoe Tavern.

Mr. and Mrs. Lewis Marsten have arrived at their lakeshore home in the Sunnyside district for the summer, bringing along their new little son, their third, to enjoy his first Tahoe summer.

Also in for the summer is Miss Shirley Flagg, daughter of the John Flaggs of Tahoe Park. She attends University of Nevada.

Up for a weekend at the home of the Charles Spaldings of Tahoe City were their daughter, Mrs. Charles Trapp of Sacramento and son, Gary. They were joined on Saturday by her husband. Other guests at the Spalding home were M. E. Reardon, Mr. and Mrs. Charles Reardon and baby Trudy, all from Sacramento.

Ring off for the week and wish you, one and all, a cheery adios. As ever, Swanee.

New Westerns Coming To Library Shelves

TAHOE CITY—Mrs. Ruth Hoffman, local librarian at the Tahoe City branch of the Placer County library, this week reminds residents that hours remain the same as last year—1 to 4 p.m. every Monday, Tuesday, Thursday and Friday and 7 to 9 p.m. each Wednesday. A book slot has been installed near the front door which is proving handy for those returning books when the library is closed.

Miss Jane Cotton, Placer County librarian at Auburn, will bring a number of new westerns and mystery yarns to the local library this week, taking back to Auburn 60 westerns and leaving 60 new westerns for local consumption. A number of new juvenile books are also slated for this library.

To Bean Town—

Mrs. Herb Mattheus, former Tahoeite now of Carson City, left last Friday with her two children to visit relatives in Boston.

At Reno—

W. C. Johnston, who has been at Van Nuys, now has a Reno address.

Stanley Dollar Jr., who will enter a boat never before raced at Lake Tahoe, and William Stead, Reno, who hopes to take home a few prizes with his speedster. Whitey Sure "Rang the Bell"

Telephone woke me out of a sound sleep last Friday about eleven-thirty. "This is Whitey Fisher out on River Road," says a voice. "I just wanted to tell you how much I like this week's *Clarion*."

"Thanks, Whitey," I told him. "But why in blazes call to tell me at this time of night?" "Simple," he says, "your paper boy just delivered it a short while ago. Been waiting for it all evening."

Next day, Buzzy Wilson tells me he delivered Whitey's paper late because he stayed for the school dance and thought it would be OK to drop it off on his way home.

From where I sit, I can't blame Whitey for his joke. He was just reminding me we owe other people the same respect we expect from them. Since I'm always talking about respecting the other fellow's rights—including his right to enjoy a glass of beer if he chooses, it was only fair that Whitey should "wake me up" to *his* right to get his copy of the *Clarion* on time. Thanks again, Whitey!

BLIZZARD VICTIM'S BODY IS FOUND NEAR CHAIR LIFT

TAHOE CITY— The body of Joe Carson, Squaw Valley emplyoee who disappeared in a blizzard last December 29, was found Friday.

The body, badly decomposed, was found half wya up the slope of the mounatin which carries the Squaw Valley chair lift. Authorities believe Carson was killed by a snowslide when he descended the mountain during a bad storm. He was spending a night in the chair terminal engine room when the storm broke, reports said.

Jerry McCracken, a carpenter employed at Squaw Valley, is credited with finding the body about 300 yards from Tower 20.

Constable Harry Johanson of Tahoe City, summoned to investigate, notified Coroner Francis West of Colfax and removed the body by toboggan.

The constable believes Carson was killed instantly in the snowslide in which he was caught, as almost every bone in his body was broken. His snow shoes, on which he tried to escape the howling blizzard on the mountain top, were still strapped to his feet.

West removed the body to Colfax for an inquest and funeral arrangements.

TAHOE COMPARED FAVORABLY WITH SWITZERLAND

SACRAMENTO— Californians are unnecssarily spending money when they select Switzerland for a vacation rather than Lake Tahoe, the high Sierra or Pacific Coast beaches.

This is the opinion, based on experience, of four Turkish university professors here to observe economic and industrial activity in California. They are Dr. Bedri Gursoy, Dr. Cumbar Ferman, Behic Hazar, Erol Bilik and Cemal Mihcioglu, all of the Univesity of Ankara, Turkey.

Turkey wants to keep on "good diplomatic terms with Switzerland" and Europe in general, Gursoy told interviewers. "But we must admit California has mountains just as scenic," he persisted.

The group has visited the length and breadth of California, including trips to the Redwoods, Shasta Dam, Lake Tahoe and other points of interest. They will study at University of Southern California for nine more months before returning home.

Officers of the local Flotilla include Fred Main, commander; Charles McFarland, vice commander; Al Young, training officer; Charles Brown, secretary; L. J. Putnum, port security officer.

Mrs. Main served refreshments following the meeting Monday evening.

WARREN SINCERE ON CANDIDACY, NEWSMAN STATES

by HENRY MacARTHUR
(Capital News Service)

SACRAMENTO —(C. N. S.)— Some insight into the character of Governor Earl Warren, presidentnal nomination candidate, developed in a press conference the governor said would be the last in California before he leaves for Chicago next week to attend the national convention.

Although he heads the California delegation, and all its votes are pledged to him, the governor is not a member of the delegation, and consequently will have no voice through a vote at the convention in the selections of the GOP candidates.

This factor gave rise to a discussion by the governor of his attitude and the possible choice of the delegation in the event it becomes impossible fro Warren to secure the nomination, a situation that appears more than likely at the present time.

The question of the governor's sincerity and earnestness in his candidacy came up, in view of statements and innuendos through out the nation that he seeks some federa appointment to be tendered in the event the California delegation is released to another candidate. Spiking this charge emphatically, the governor said:

"It is of far greater importance to me to be considered an earnest candidate for the nomination than it would be even to secure the nomination."

This statement in fact, mirrored the high principles that Warren has set forth personally in his campaign for high office. In the minds of Capitol newsmen, there never has been any question that the governor's activities in seeking the nomination have been motivated by anything other than a desire to be of service to his country.

With only 76 votes pledged to Warren, although he expects to pick up more at the convention, it does not appear likely that the California aspirant stands a chance of nomination. On the other hand, in the case of a close race between Eisenhower and Taft, the 76 votes might work out to be enough to swing the battle either way.

Such a situation would put Governor Warren in an enviable position if politics only were concerned, for the governor could name almost any post he wanted, and get it. But Warren's attitude reflects something more than backyard politics in the race for the most important job in the world.

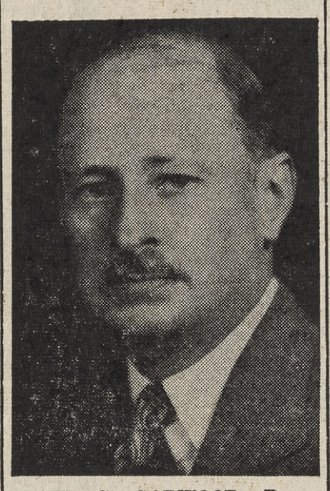

"I have said," the governor stated, "that if it should develop that I have no chance to obtain the nomination, I will do what any honorable man should do in the circumstances, that is, to release the delegates pledged to me to act in accordance with their own consciences. I would make that statement whether I had 76 or 760 votes. I will not restrict myself opinion if I chosoe to do so, but to prevent my own expression of this would not mean that the delegates would be bound by my opinions."

At the same time, the governor declared every candidate should express the same opinion, and support whatever party candidate is nominated.

"This is the only honest approach to a bid for the nomination," he said. "Any other would reflect a dog in the manger attitude which would destroy, rather than build up the party, for personal reasons."

Other than the delegates already pledged to him, the governor has received nothing of official help, nor has either the Taft or Eisenhower camps sought to arrange a conference with him, he said.

Tarzan®

by EDGAR RICE BURROUGHS

AFTER A HERD OF BUFFALO STAMPEDED PAST, TARZAN CONTINUED HIS TRAVELS, WARILY. THE BEASTS LEFT A VACUUM OF SILENCE IN THEIR WAKE -- AND WITH THAT SILENCE, A PREMONITION OF DANGER.

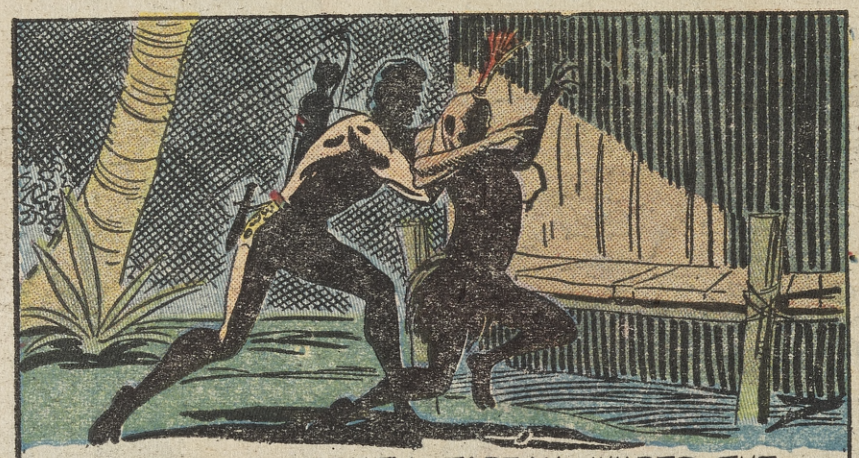

LATER, AT DUSK, THE APE-MAN WAS SURPRISED BY THE FAINT SPOOR OF MAN. PEERING THROUGH THE BUSH, HE SAW A CRUDE NATIVE VILLAGE.

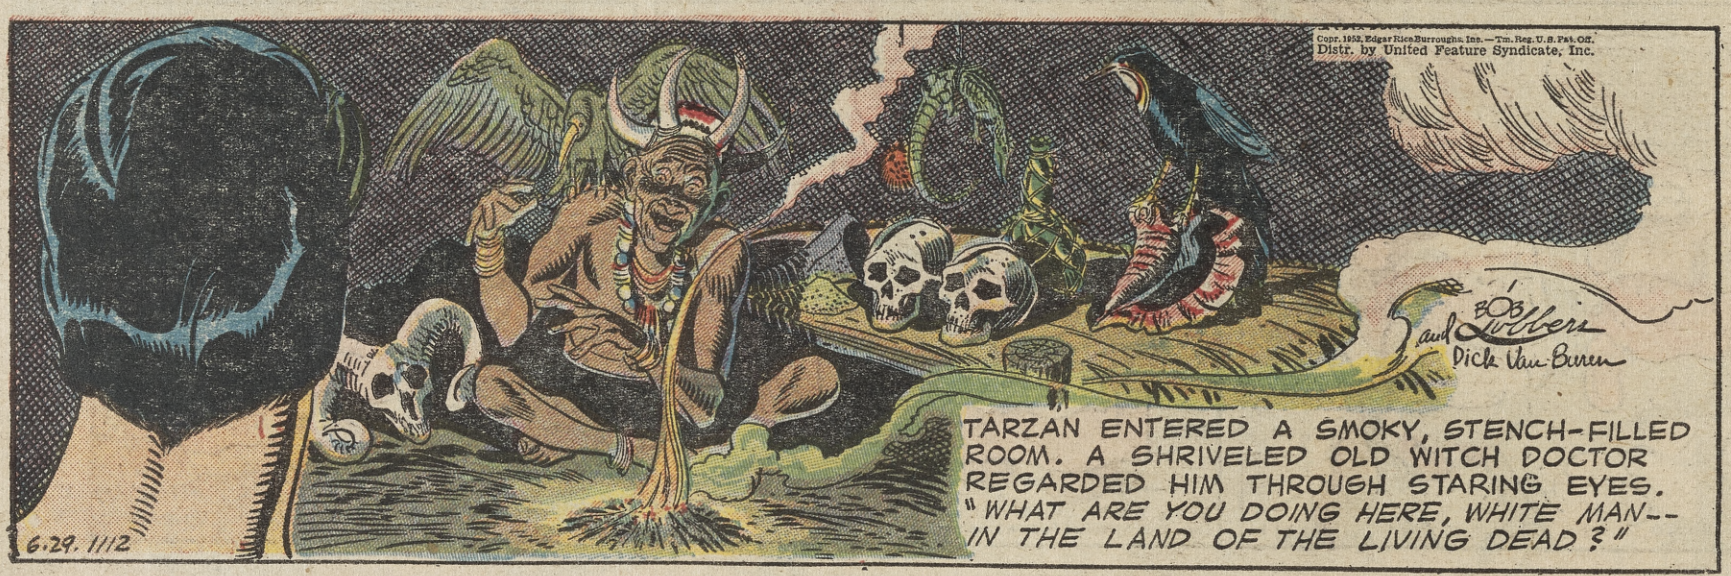

HE APPROACHED CAUTIOUSLY, TO INVESTIGATE, AND FOUND THE STREET DESERTED -- BUT THEN, A SHADOWY FIGURE DARTED TOWARD A DISTANT BUILDING!

WITH CAT-LIKE STEALTH, TARZAN JUMPED THE MAN FROM BEHIND. "WHAT IS GOING ON?" HE GROWLED. "WHY DOES EVERYONE HIDE?"

TREMBLING, THE NATIVE LED THE JUNGLE LORD TO THE LARGEST HUT. "IN THERE," HE WHISPERED. "PERHAPS WAMBA CAN HELP YOU."

TARZAN ENTERED A SMOKY, STENCH-FILLED ROOM. A SHRIVELED OLD WITCH DOCTOR REGARDED HIM THROUGH STARING EYES. "WHAT ARE YOU DOING HERE, WHITE MAN -- IN THE LAND OF THE LIVING DEAD?"
